Dear John Loudon:

Thank you and all of you fine American boys for your kind thoughts of me and my poor country Greece. I cried and cried with each letter I read. You are all so wonderful. You made me so happy!

I did not enter the Pentathlon, as I am only interested in long distance running, especially the Marathon.

Thank you for your good wishes to win the important Marathon Race in Norway. I shall do my best.

Please tell every member of your group that I am adopting each one of you, including yourself, as my own sons. And when you all grow up to be fine American men, if ever you come to Athens, you will find, each one of you, your letter among the records in the office of the Greek Federation of Athletic Clubs in Greece.

Please send your class gift of food to:

Mayor of Halandri
