PULMAN: Europe's network of excellence for public libraries, museums and archives at local level

Αναπτύσσοντας Ψηφιακές Βιβλιοθήκες
Κέρκυρα, 21 Ιουνίου 2002

e-Europe: 5 core priorities until 2005

1 promote attractive content, services and applications
   for all Europeans

2 provide public services on-line

3 pursue digital inclusiveness for all Europeans

4 promote faster Internet, broadband

5 ensure trust and confidence in cyberspace

PULMAN: the genesis

- **PubliCA: the public libraries Concerted Action**
- - EU-framework IV
- - 1997-99
- - focused on Public Libraries
- - created a human network
  - - to share experience
  - - to exchange expertise

- **PULMAN: Public Libraries Mobilising Advanced Networks**
- - IST- framework 5
- - 2001-03
- - starting from Public Libraries
- - the network as a basis for
  - - ACTION
  - - POLICY WORK

PULMAN: the main objective
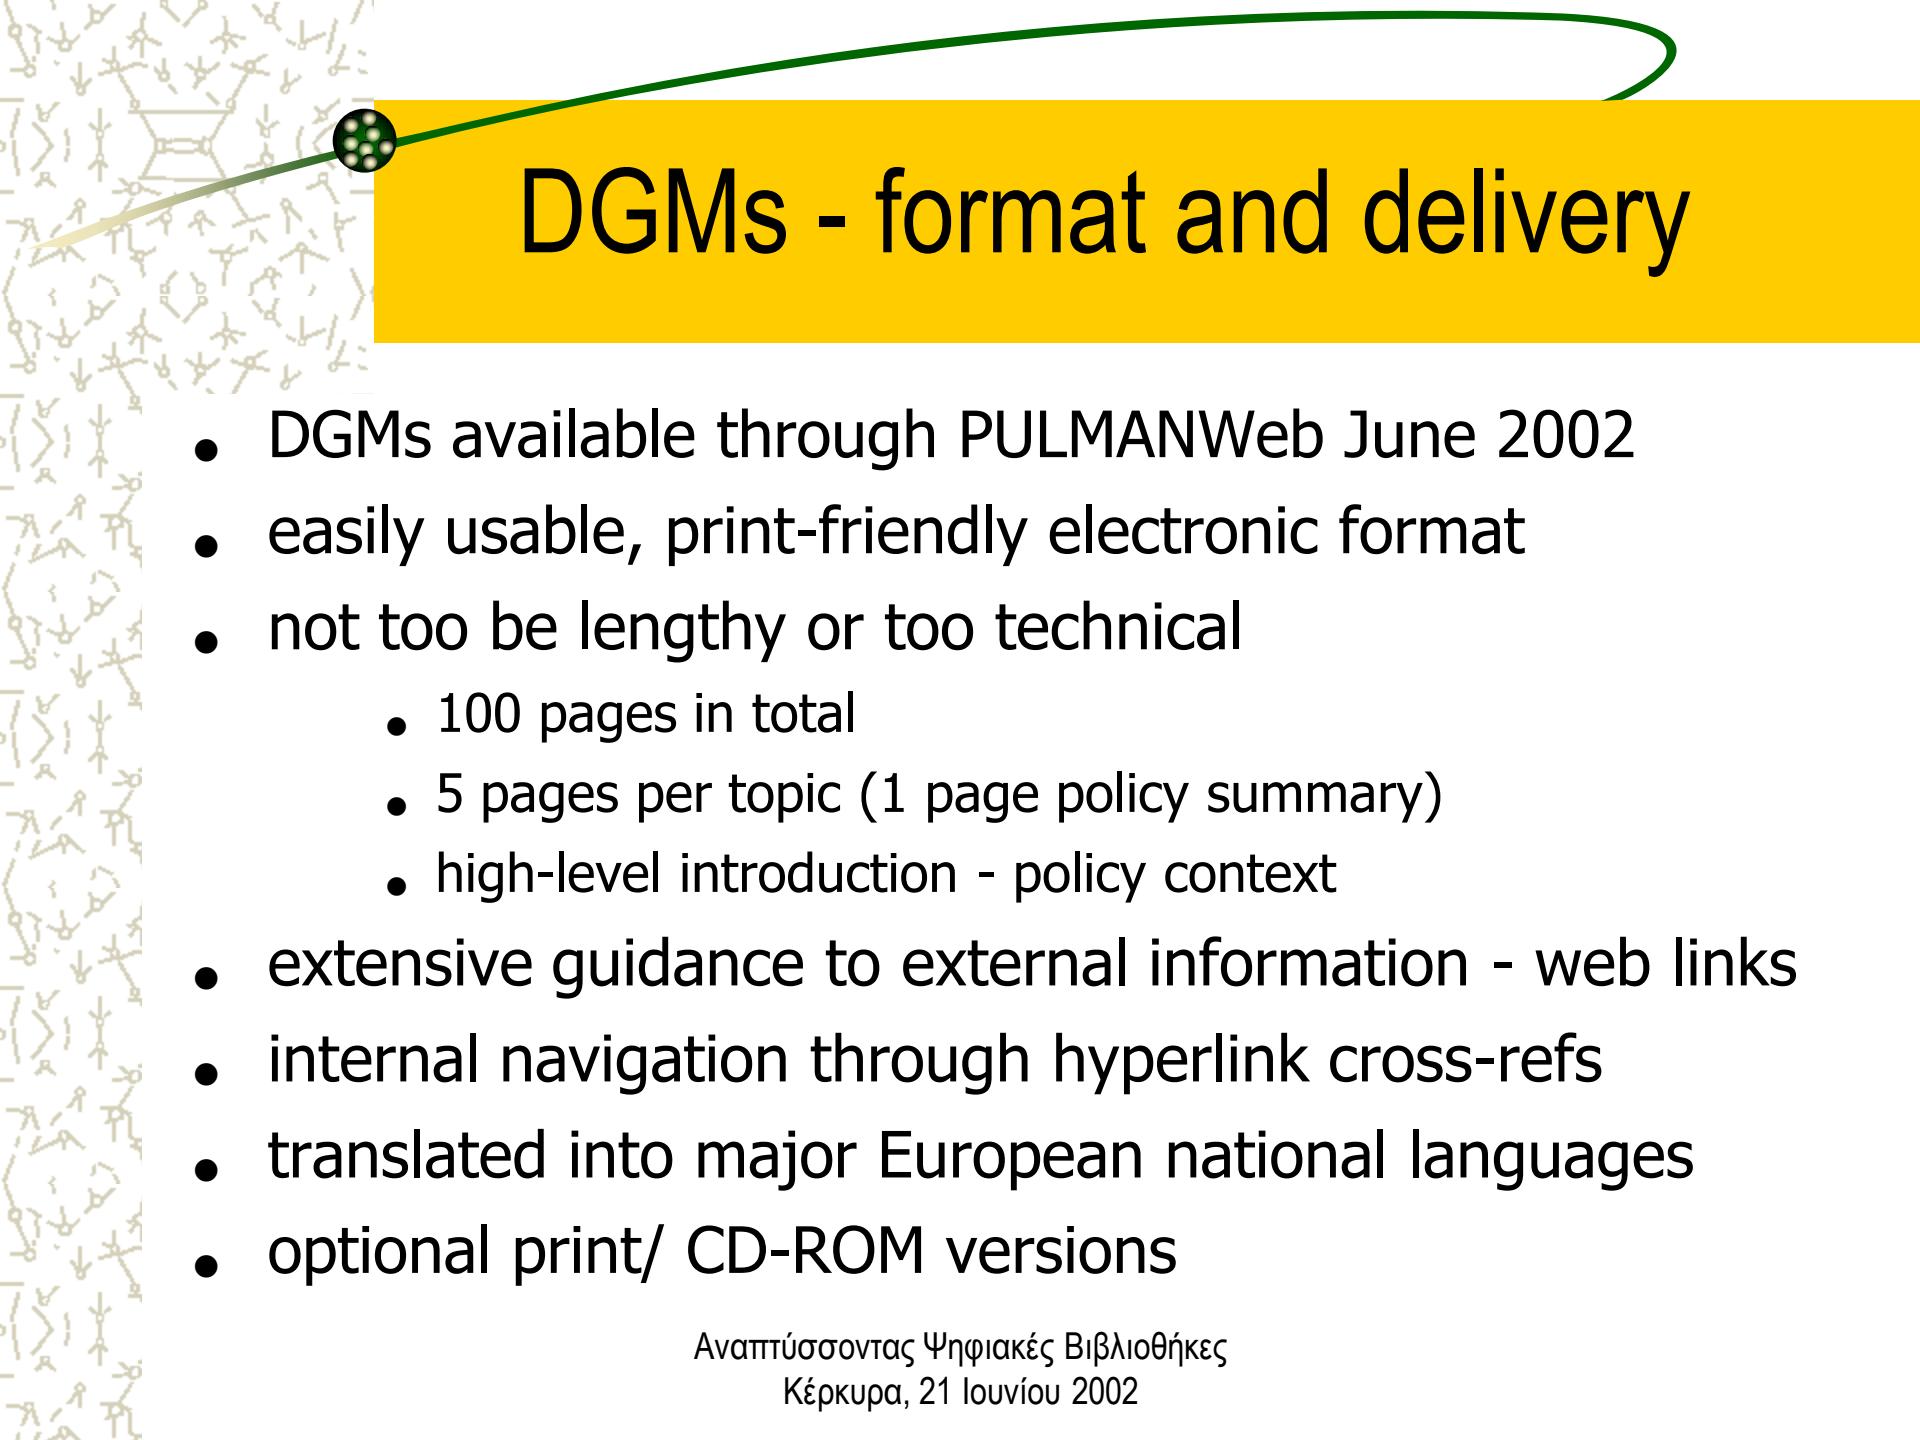

To support the agenda of public libraries

- 1. to identify the most important issues of today and tomorrow
- 2. to document issues and to define strategies
- 3. to disseminate findings over Europe
- 4. to stimulate political action in individual countries

= 4 step approach

DGMs - purpose

- identify and describe best practice and innovation in public library services
- interaction with museums and archives
- link to policy making
- point the way to the future
- policy makers and senior service managers
- 'ammunition' in promoting new strategies and the implementation of new services
- IFLA/Unesco guidelines

DGMs - format and delivery

- DGMs available through PULMANWeb June 2002
- easily usable, print-friendly electronic format
- not too be lengthy or too technical
    - 100 pages in total
    - 5 pages per topic (1 page policy summary)
    - high-level introduction - policy context
- extensive guidance to external information - web links
- internal navigation through hyperlink cross-refs
- translated into major European national languages
- optional print/ CD-ROM versions

Initial structure of DGMs

1. Scope
2. Policy Issues
3. State of the Art in Public Libraries
4. Future agenda
5. Best practice

DGM – Digitization

🦋 Policy Issues

– **Government Policy initiatives**

- e-Europe 2002 Action Plan

- Lund Meeting

- Peoples Network

DGM – Digitization

* Good practice guidelines
  - Planning
  - File formats
  - Resource Description
  - Protection of images
  - Workflow
  - Delivery systems
  - Evaluation

Using the framework:the components of a Digitization project
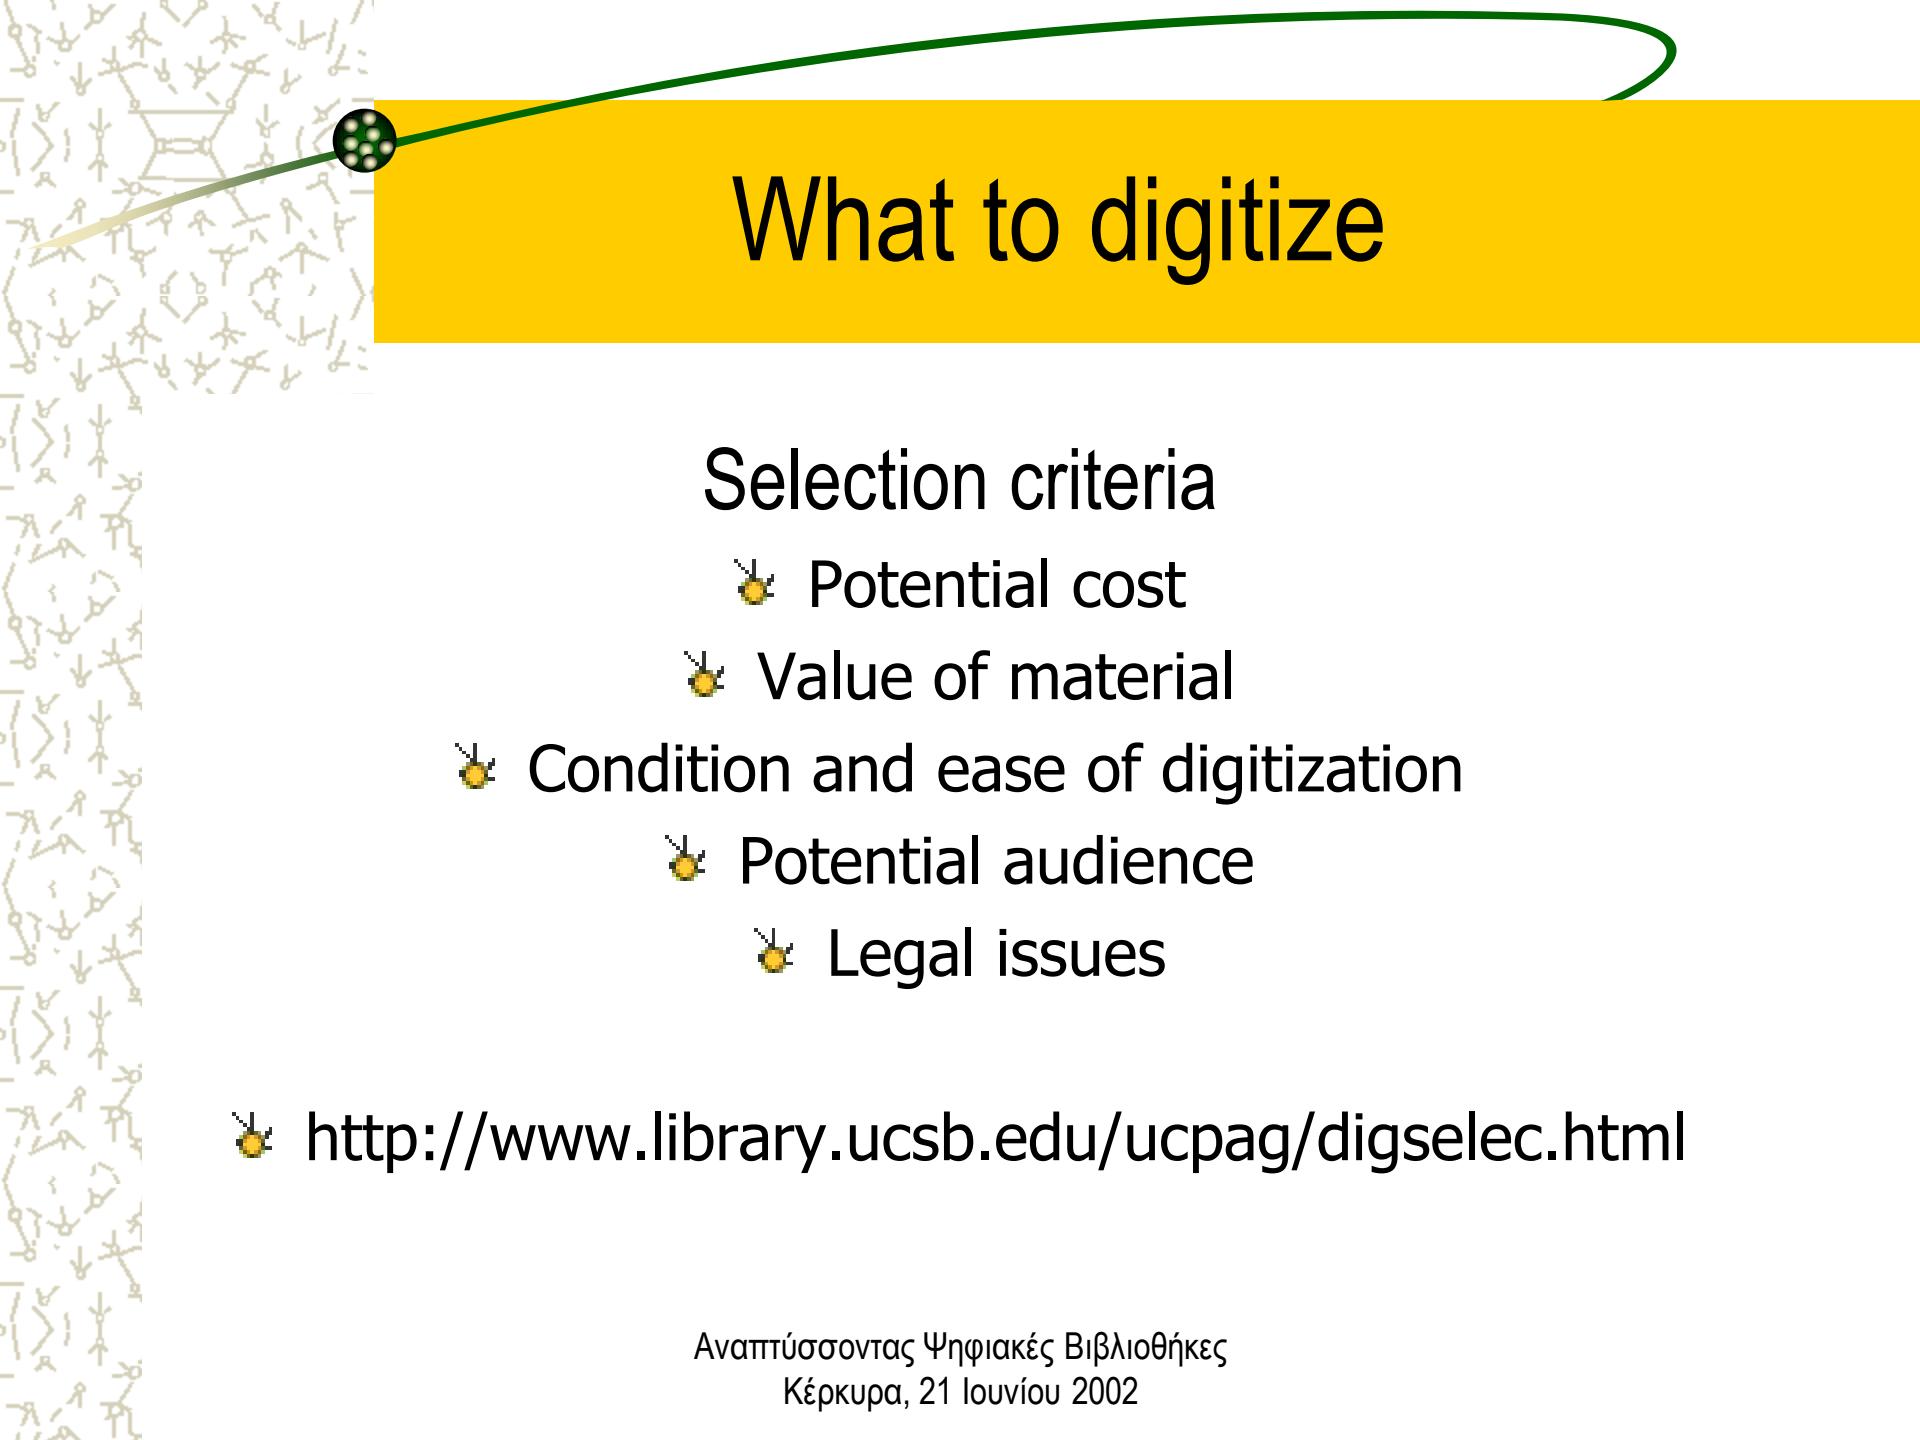

- **Data capture and creation**

  image handling-image capture-file formats-metadata

- **Data access and delivery**

  search and retrieval-user issues

- **Managing the digital collection**

  database creation-workflow-quality assurance-project management-digital preservation and storage
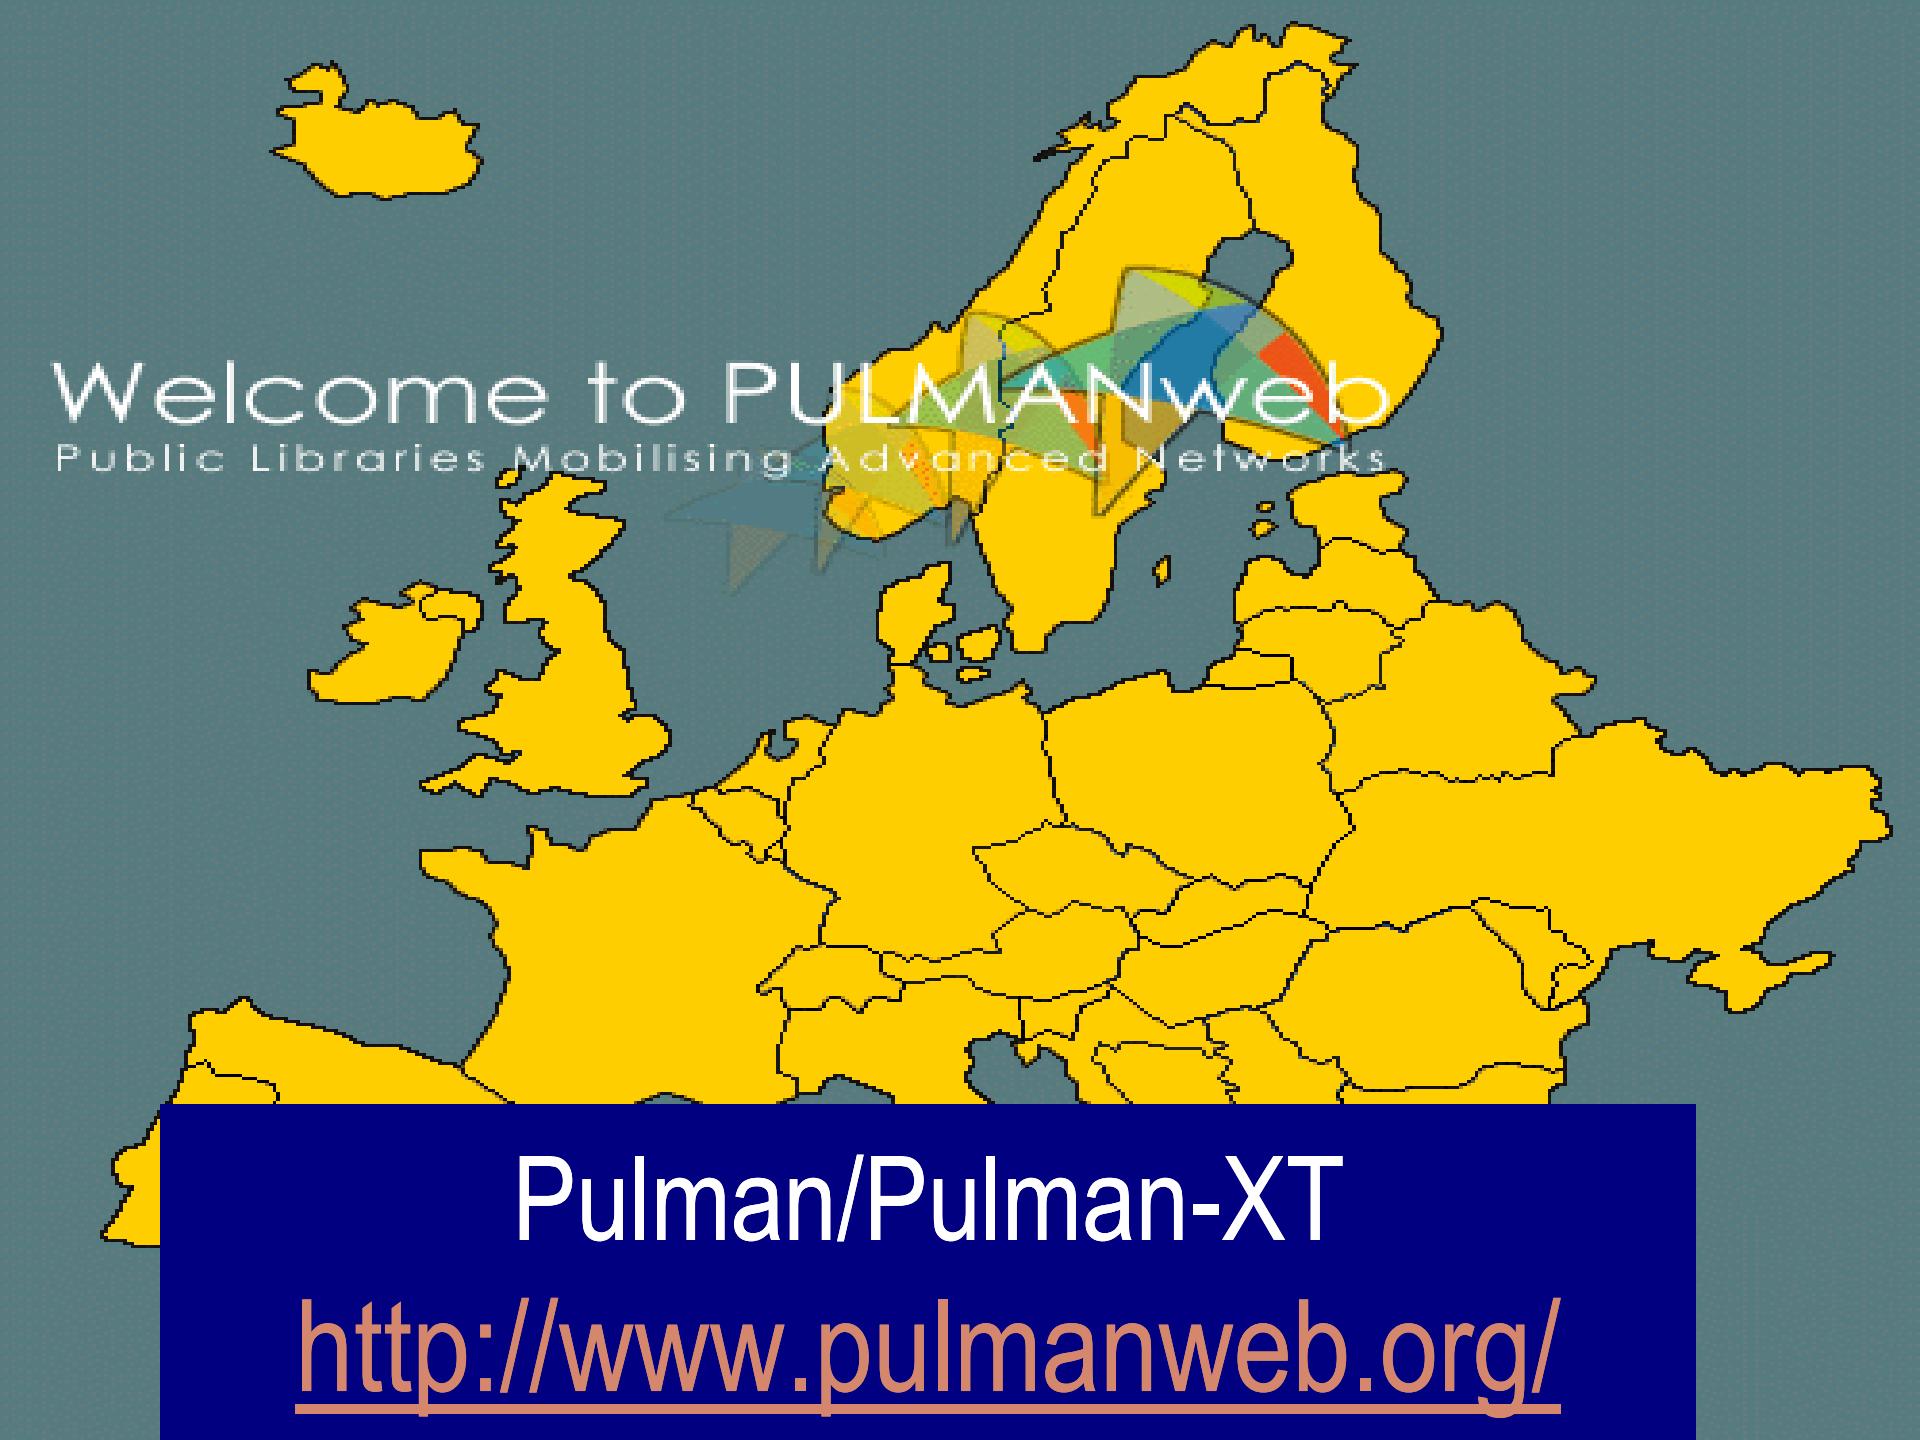

What to digitize

Selection criteria

- Potential cost
- Value of material
- Condition and ease of digitization
- Potential audience
- Legal issues

- http://www.library.ucsb.edu/ucpag/digselec.html

Digitization: user needs

- Present and future users
- Present and future content/information needs
- Delivery
- Navigation
- Number of users
  - Sustainability
