Παρουσίαση βιβλίου του Δρ. Φίλιππα Τσιμπόγλου, Δ/ντη Βιβλιοθήκης Πανεπιστημίου Κύπρου

Συνεργασία Βιβλιοθηκών: μια συστημική προσέγγιση

Η ΕΕΒΕΠ σε συνεργασία με την Δημοτική Βιβλιοθήκη της Καλλιθέας πρόκειται να παρουσιάσει το βιβλίο του εξαίρετου συναδέλφου του Δρ. Φίλιππα Τσιμπόγλου.

Το βιβλίο είναι αποτέλεσμα αφενός των είκοσι πέντε χρόνων ενεργού δραστηριοποίησης του συγγραφέα στο χώρο της επιστημονικής πληροφόρησης και των **βιβλιοθηκών** και αφετέρου της έρευνας που πραγματοποιήθηκε κατά τη διάρκεια της εκπόνησης της διδακτορικής διατριβής του, στο Τμήμα Αρχειονομίας και Βιβλιοθηκονομίας του Ιονίου Πανεπιστημίου.

Το βιβλίο επικεντρώνεται στο πεδίο συνεργασιών των Ακαδημαϊκών **Βιβλιοθηκών** στο περιβάλλον της δικτυακής, ψηφιακής επιστημονικής πληροφόρησης. Αποσκοπεί στη δημιουργία του βασικού νοητικού υποδείγματος (conceptual model) ενός «Συστήματος Συνεργασίας Ελληνικών Ακαδημαϊκών **Βιβλιοθηκών**».

Η παρουσίαση θα πραγματοποιηθεί την **Παρασκευή 8 Μαΐου στον πολιτιστικό χώρο «Καλυψώ» του Δήμου Καλλιθέας.**

Ημερίδα: Παγκόσμια Ημέρα Βιβλιοθηκών
Η καθιέρωση ενός νέου θεσμού

Η ΕΕΒΕΠ σε συνεργασία με το ΕΚΕΒΙ θα πραγματοποιήσει την ημερίδα με θέμα: **«Ο Εορτασμός μιας Παγκόσμιας Ημέρας των Βιβλιοθηκών: μια ελληνική πρωτοβουλία»**, στις **28 Μαΐου 2009**, στο πλαίσιο της **Διεθνούς Έκθεσης του Βιβλίου Θεσσαλονίκης**, που θα λάβει χώρα από **28 ως 31 Μαΐου, 2009.**

Τιμώμενη χώρα στην φετινή Διεθνή Έκθεση του Βιβλίου (ΔΕΒΘ), είναι η Γερμανία όπου θα παραστούν σημαντικές προσωπικότητες από την τιμώμενη χώρα και τον υπόλοιπο κόσμο, οι οποίοι χαράσσουν το μέλλον **στην Παιδεία και στον Πολιτισμό.**

Η πρόταση αυτή της Ένωσης από κοινού με το ΕΚΕΒΙ, αφενός με την διοργάνωση της παραπάνω ημερίδας και αφετέρου με την υποβολή του σχετικού αιτήματος προς την UNESCO, έρχεται να καλύψει ένα μεγάλο κενό σε παγκόσμιο επίπεδο.

Προσυνεδριακή Καταστατική Ημερίδα:
Ανοικτός Διάλογος
για το καταστατικό της ΕΕΒΕΠ

Η ΕΕΒΕΠ στο πλαίσιο των εξαγγελιών για την πραγματοποίηση καταστατικού συνεδρίου αποφάσισε να ανοίξει τον διάλογο με την παραπάνω ημερίδα που θα γίνει στην Αθήνα , 29 Ιουνίου 2009.

Οι σύγχρονες ανάγκες που διαμορφώνονται σε επαγγελματικό επίπεδο επιβάλλουν ένα νέο προτεινόμενο πλαίσιο δράσης για τις βιβλιοθήκες και κατά επέκτασιν για τους επαγγελματίες επιστήμονες της πληροφόρησης.

First International Conference on 'Networked Digital Technologies' (NDT2009)

Location: Ostrava, Czech Republic
Dates: 28th Jul 2009 to 31st Jul 2009

The first International Conference on 'Networked Digital Technologies' will be held at the VSB Technical University, Ostrava, Czech Republic from July 28 - 31, 2009 which aims to enable researchers build connections between different digital applications. Currently, a number of institutions across the countries are working to evolve better models to provide collaborative technology services for scholarship by creating shared cyberspace thro expert collaboration, but this is a challenge for the institutions for a number of reasons. In the last few years, the landscape of digital technology applications projects for the various disciplines in humanities, social sciences, and sciences appears induced by many initiatives. For the creation of research clusters, the research community has thousands of databases, websites, local computing clusters, and web-based tools around individual themes, interests and projects. In most cases, these tools and resources are and were created to meet the specific needs of a particular community. In many cases, the funding and support for these critical initiatives is fragile and temporary, and directed in piecemeal fashion. There is a need to provide concerted efforts in building federated digital technologies that will enable the formation of network of digital technologies.

International Federation of Library Associations and Institutions (IFLA)
Libraries create futures:
Building on cultural heritage
Location: Milan, Italy
Dates: 23rd Aug 2009 to 27th Aug 2009

Thanks to libraries, civilisations have gathered and stored evidence of their manual, scientific, artistic, literary, musical as well as religious activity. Assuredly, libraries preserve the bases and the roots of human knowledge. Knowledge transmission today has radically changed: the scope of bibliography has widened immensely. Libraries therefore had to update their role: preservation and access are still the main points to be achieved, though in a new, critical and professional way, in order to assure the adequate standard of the service. In this way libraries keep pace with the change brought about by history and technology, helping to shape the future through the resources inherited from the past for example cultural heritage. Century long traditions have created a vast and diversified context, in which mediaeval libraries (mostly in monasteries and universities), live together with Renaissance libraries as well as modern libraries, whose efficient standards promote public reading and research effectively.
