

The 9th International Web Archiving
Workshop (IWAW 2009)

Corfu, Greece, September/October, 2009

Workshop Proceedings

Preface

IWAW is an annual international workshop series that brings together both practitioners and researchers in the domain of Web archiving, Internet and new media preservation. The International Web Archiving Workshop (IWAW) series, organized since 2001, provides a cross domain overview on active research and practice in all domains concerned with the acquisition, maintenance and preservation of digital objects for long-term access, with a particular focus on Web archiving and studies on effective usage of this type of archives. It is also intended to provide a forum for interaction among librarians, archivists, academic and industrial researchers interested in establishing effective methods and developing improved solutions for data acquisition, ingest, and accessibility maintenance

IWAW 2009 took place the 30th of September and 1st of October 2009, in conjunction with ECDL in Corfu (Greece). Being the main event in this domain, the workshop provided a cross domain overview on active research and practice in all domains concerned with the preservation of the Web. This year's workshop covered exiting new approaches and new research (from virtual worlds preservation to temporal dimension of Web Archives) as well as practical issues addressed by Archiving institutions in order to exchange experience in this field.
