### PASTEUR4OA/Welcome

Welcome to the PASTEUR4OA website!

PASTEUR4OA (Open Access Policy Alignment Strategies for European Union Research) aims to support the European Commission's Recommendation to Member States of July 2012 that they develop and implement policies to ensure Open Access to all outputs from publicly-funded research.

PASTEUR4OA will help develop and/or reinforce open access strategies and policies at the national level and facilitate their coordination among all Member States. It will build a network of centres of expertise in Member States that will develop a coordinated and collaborative programme of activities in support of policymaking at the national level under the direction of project partners.

# LEARN Project

The screenshot shows the LEARN Project website. At the top, there is a navigation bar with the LEARN logo and the word "learn" in red. Below the logo, there are navigation links: "About LEARN", "Deliverables", "LEARN Events", "Tools & Resources", "News", and "Español". The main content area features a paragraph about the project's resources, followed by a section titled "Toolkit of Best Practice for Research Data Management" with a sub-section "The Model RDM Policy". A sidebar on the right contains a search bar, a "RECENT POSTS" section with three entries, and a "Test your RDM readiness!" section with a traffic light image. The Windows taskbar is visible at the bottom.

## learn

About LEARN ▾ Deliverables LEARN Events ▾ Tools & Resources ▾ News Español

The **LEARN Project** has created resources to help Research Performing Institutions manage their research data. Using the **LERU Roadmap for Research Data** as a starting point, LEARN has produced the following freely-accessible materials:

### Toolkit of Best Practice for Research Data Management

Our Toolkit includes 23 Case Studies covering topics such as Policy, Advocacy and Costs, a Model RDM Policy and an Executive Briefing in six core languages.

[Download a PDF of the Toolkit](#) [Navigate the Toolkit online](#)

### The Model RDM Policy

LEARN has produced a model RDM policy alongside implementation guidance.

[Model Policy for Research Data Management](#)

[Guidance for Developing an RDM policy](#)

### Key Performance Indicators

LEARN provides a list of Key Performance Indicators (KPIs) that should help each individual research institution measure how successful they are being in implementing the recommendations of the LERU Research Data Roadmap and the Toolkit produced by LEARN.

[Download the KPIs](#)

### Test your RDM readiness!
