HOW LOVELOCK WAS BEATEN

## HEAT TOO MUCH FOR WALKERS

And Only Four Finish out of Forty-one in the Marathon

### LOVELOCK DEFEATED

The success of the Amateur Athletic Association championships yesterday was the defeat of the famous Lovelock in the mile. His conqueror was Wooderson, of the Blackheath Harriers, who beat the champion by a second amidst great applause.

Jack Lovelock, who recently wiped up America's best mile, was beaten in an emotional fashion in the A.A.A. open championship at the White City yesterday. More than 20,000 people had come along expecting the New Zealander to put up a record. Instead they saw him beaten by a game little English youth, B. C. Wooderson, of Blackheath Harriers, a London club.

Lovelock has said that he does not run to "beat the watch" but only to beat his opponents. This time he failed against both watch and man.

He tried his famous jump finish. It didn't work because the determined "Heathen" had a sprint that was just as good as that of the former world's record-holder.

It was a triumph for British middle-distance running. Wooderson was led by the old A.A.A. champion and record-holder, Albert Hill.

The time was 4 min. 17 2-6 sec. It might have been a lot faster. Next to Wooderson the hero of the encounter was the Light Blue, Peter Ward, actually a three-quarter.

Ward, endowed with a devil-may-care spirit, shot into the lead at the gun and did his best to make the others run a cracking pace.

At the end of the opening lap he held a lead of fully 150 yards, the watch showing 41 1-5 sec. Lovelock then lay third. Half mile gone. Ward had been overtaken, but he still stuck gamely to the lead. Lovelock came next with Wooderson at his heels, 2 min. 6 4-5 sec. was promising time for 600 yds.

Lovelock, holder of the title began to liven up hearing the bell, but Wooderson jumped him and refused to let him move up going down the back straight.

Falling in at the Blackheath lad's shoulders, Lovelock stayed there until nearly on to the home straight. Then he capitulated. But young Wooderson had been well tutored.

He went with Lovelock and to the obvious sign he of the pedestrian, medical student, he could not hold Wooderson, who was going up inch by inch to victory.

It was a remarkable performance and the second time this unexpected runner had lowered the others' colours. It was the most popular win of the day.

British athletes came out of the change room better than they have ever equipped. Arthur Sawney, the H.A.P. City's other from Hendon, won the 100 yds. his first A.A.A. title, although he is a single champion.

He only did 2 yds. worse than even, but was running head on to a stiff breeze. In the Hampshire house, followed at the last and brought finishing line, he worked like making up the ground he had lost at the start's end. He finished third, half a yard behind the turning sprinter, Chas. de Holland, who was 11 years a pace not away from Sawney.

Track triangles were the order of the day for the British athletes, Sawney in the sprint and Wooderson in the mile were the only ones to show a half-mile drive and six miles, the straight chase, both kinds races, and the marathon.

Roberta, of Bedford A.C. the Northern champion did 40 seconds in winning the quarter, three yards in front of the French champion, Belmont, who seemed not a little surprised to find someone outstripping him up the finishing stretch.

Roberta looked a little tired, but quite so immediate as is his usual when nearing the judges, but the clock gave every satisfaction.

One of the many high lights of the meeting was the half-mile when the Scottish champion, Hamish Stoddard, Stoddard was, like Lovelock in the mile, an "early favourite, but, unlike the other favourite, he proved his mettle in a steering dash.

He limped 1 min. 51 2-10 sec raised his gun, for here we have a likely runner to carry on Britain's tradition in the Olympic 800 metres.

The Glasgow did not win without a challenge. He had to do all his running forced along at the finish by Jack Powell, London A.C. and the game young Ashington runner, H. Scott, Linn. U.S.

He was the second place only three feet behind the Blackheath Harriers and a field of 10 runners, who had beaten the "Heathen" in the mile, made a successful change over to three miles.

He beat Wally Beavers, the Northern champion, in a process round-up. Then Bert Wally, of the same club, won the mile, then, in which fortuous started

and only four finished the course. Norris was the form horse. Earlier in the year he won the "Sporting Life" marathon race from Whitehead to London.

Behind him came the Christ starter, G. Kyrkaldus, finishing strongly less than a third behind. The heat had beaten the others.

One found his way back to the stadium by some unknown means, and was staggering about the arena in the throes of an attack, resisting all efforts of the ambulance men to assist him in his plight.

The third Poly triumph came in the high jump, where Brian West was at 6 ft. 3 in., the best he has ever done. This was the only success achieved by a native athlete in a field event.

One must pay tribute to the vaulting of the American from Yale University, Keith Brown. He cleared 15 ft. 10 in. for a new British record, and promised to add an inch or two next Saturday against Oxford and Cambridge.

D. G. Fisher's victory in the 120 yards hurdles was his fourth in a succession of a feat which has not been achieved for forty years.

The great heat also affected the competitors in the seven miles walk, and only six finished out of the 14 who started. H. A. Hake was the winner.

Among those who retired were A. A. Cooper, who was out of the 10 miles walk on Friday, and Bernard de Latria, the only foreign entry.

A. M. G. Page, the holder of the world's British and English records over this distance, could only finish third.

Hake, who walked in an evasive and with the ease of his back protected by a handkerchief, tried to finish, and was by over a quarter of a mile.
