April 30th, 1946.

Dear Mr. Kemp,

As a Greek I hasten to express you my thanks and my congratulations for the victory that Kyriakides has given to Greece and which is due to your initiative.

This victory increased certainly the love of the friends of Greece, which, under the present circumstances, needs a great support. It created interest to those who were indifferent for Greece and confounded its enemies.

I am especially pleased that a supplementary assistance for our Nation comes from an Englishman.

Yours with most sincerity,

(signed) G.C. Criesis.
