Sweden

Dear Mr. Svensson,

Thank you very much for your letter of November 6th, which I received only two days ago.

Few weeks ago I received a very nice letter from Alex, he had written it himself and in it he was also asking about "his friends from Sweden", I am sending you herewith a copy of his letter. He is now in the second grade of Primary School and from what his teacher wrote me he is doing well and his a good boy.

Yesterday I went to the Headoffice of the Organization "Her Majesty's Fund" to ask for a permission for him to come to Sweden and the answer was yes. As regards me I had 10 days left from my holiday and therefore I am free too. So I am very happy to tell you that we can both accept your so very kind invitation. We thank you very very much for such a kind thought.

I have started the procedures for obtaining a passeport for Alex. He will be in Athens round the 24th of December so as to spend Christmas with us at home. and by ~~the~~ 28th he will be ready for the Big Trip!

I am looking very much forward to visiting your beautiful country for once more after 18 years, and to see all my good friends, the juniors, the newspaper men and the sports fans. Please give my regards to all of them.

I would like to ask you an additional information, could you please tell me if the flight will be a chartered flight and if so how much does it costs the round trip ticket.

With best personal regards to you,

I remain,

Sincerely yours,
