UCY infocentre on EU processes

THE University of Cyprus (UCY) has established a new Europe Direct centre at the Stelios Ioannou library, aiming to provide information about the European networks operating in Cyprus. The inauguration ceremony was held last week by the head of the delegation of the Euro-

pean Commission in Cyprus. The centre, whose offices can be found at the learning resource centre and library of UCY, will update students on funding opportunities from various European programmes, and also provide the public with information on the workings of the EU.
