

Stronger through the crisis? How the pandemic has opened up new perspectives

Susanne Blumesberger (Vienna University Library)

PHAIDRA Partners

The repository PHAIDRA is used by different institutions in Europe. The way how the repository is intergrated in the institution is different. Some are running their own installation and do also the hosting for other partners. Also some partners don't use their own PHAIDRA, they are served by a PHAIDRA installation from other institutions.

Research Data Management in the Social Sciences: RDM basics, challenges and support

Lisa Hönegger

Presentation, Online Workshop on 9th March 2021 in context of the event series "Research Data Management in Austria"

Content: What is RDM and why is it important? What is the additional „burden“ for researchers? The FAIR principles. Challenges for social science data. Finding the balance between data protection and data sharing. Getting consent, pseudonymising data and restricting access. Archiving with AUSSDA – from first contact to publishing. Opportunities to get ahead. Making RDM manageable.

4. Education and Training

5. Internship

6. Refinement of the communication style

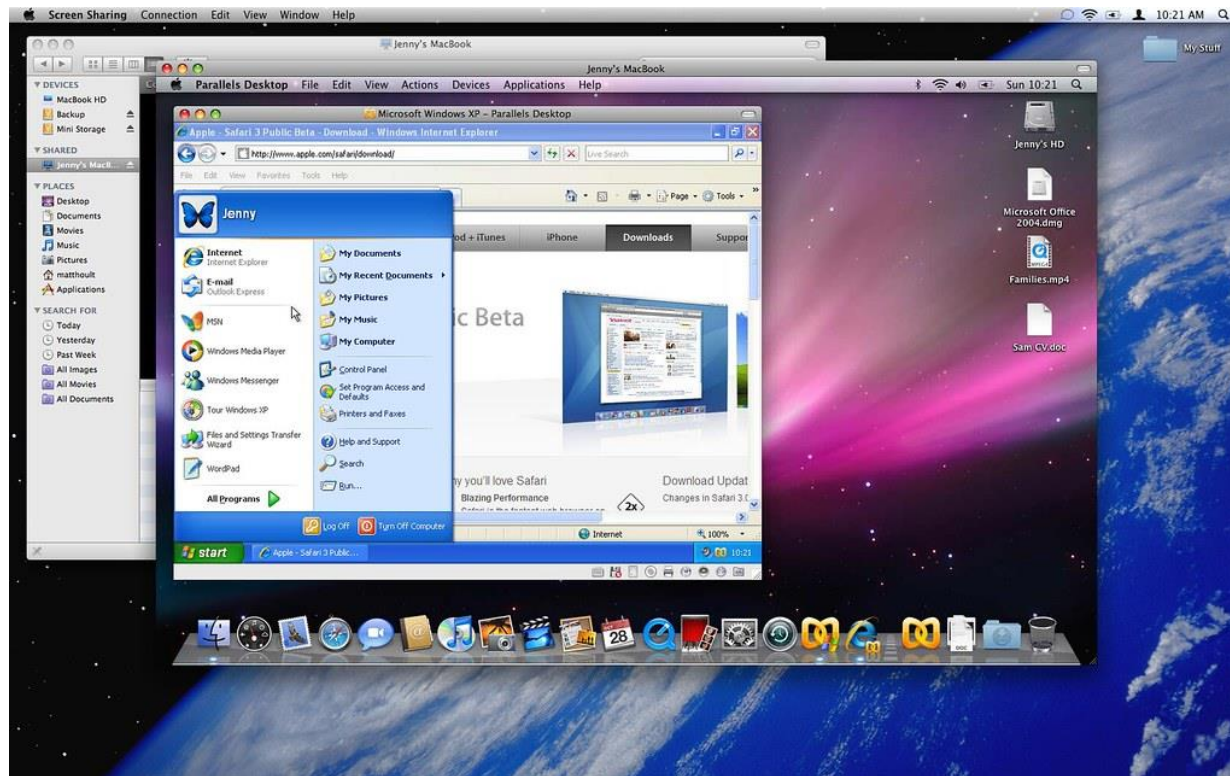

7. The benefit of the chat-function

- it works quickly
- accessible
- practical for additional information

8. Screen-Sharing

Diversity

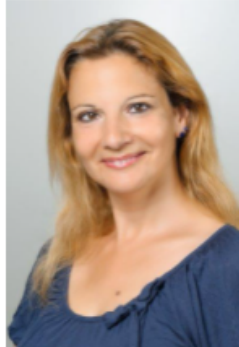

E-accessibility

Thank you for your attention!
