My dear friend:

This week I returned from Greece and am at the above address. The telephone number is Commonwealth 6788. After the Marathon is over, I would like very much to see you and the two other runners from Greece.

This Spring, I am between Boston, New York and Washington. Possibly, we could make one of these trips together. I am interested in doing all that I can, as you know, for the Olympic Association of Greece, which, I believe, should be more interesting than ever before now that Pat is King.

Anything that is pinned, must be done properly. Perhaps we can talk about this when you are less busy. With continued high regards,

Sincerely yours,

*Bill Frary*
