# SOME RACE FOR THE GOLD. OTHERS FOR THE GLORY.

*In 1946, one man won for the noblest reason of all.*

Stylianos Kyriakides...Running for the Human Race will give you a closer look the athlete, the champion and the humanitarian the world came to know as Stylianos Kyriakides. In 1946, he won the Boston Marathon for one reason and one reason alone - to bring attention to the plight of post World War II Greece and to bring back to his homeland food, medical supplies and clothing donated by Americans who rallied around his cause.

See the entire story at a very special Exhibit Opening and Reception at The Sports Museum of New England.
